## Hello Beautiful Friend!

I hope you enjoyed last weeks newsletter with some of my favorite fall and winter trends for this season! I would love to hear what you have tried so far, [send me an email!](#)

Here are some more of my favorites you might want to add to your shopping list!

Remember to click on the pictures to see more information or where to purchase...

## Leather & Faux Leather

This is very popular this season! I'm seeing it in shirts, jackets, pants and even jewelry!

## Bomber & Utility Jackets

The bomber jacket is similar to the moto jacket I shared last week. The utility jacket is a little longer and lightweight which is perfect for fall.

## Equestrian

This is a new fun trend. Kind of like a dressier western look. If you love horses, this will be fabulous for you.

## Back to Black

Black is everywhere this season. Remember, if you are a Soft Color Code (medium brown/blonde hair, medium intensity eyes (blue, hazel, green), and medium skin tone) this is not a trend you want to follow. Black is too harsh for your beautiful soft coloring. For everyone else the black is o.k. but don't overdo it. I like to see some color added to your wardrobe and dark navy is also an excellent alternative.

## Plaid & Houndstooth

Houndstooth has always been one of my favorites. Remember when choosing plaid to keep the size of the pattern in mind compared to your frame size. If you are petite choose a smaller check.

## Faux Fur Coats

As the weather gets cooler these may be your coat of choice!
