## Hello Beautiful Friend!

Wow, January went by fast! I know a lot of you were snowed in for a while but I hope everyone is safe and warm now. I am getting excited for spring! I have been looking at trend reports and colors for Spring/Summer 2024 and brighter days are definitely ahead. Be watching for those trends newsletters coming up soon!

In the meantime, let's celebrate February aka the 'month of love!' Red is really a pop color showing up in everything lately. I even heard it is going to be a trending shoe color for spring!

# FEBRUARY FASHION 2024

Break out all your red this month! We can all wear red but make sure the shade of red you choose is the right shade for your specific coloring. Whether you're celebrating Valentine's Day with a night out on the town with your husband or you're gathering with your girlfriends for a fun evening out, pull your red fashion out of your closet. Don't be afraid to "dress up" no matter the occasion!

We all love a great scarf, and the best one is the scarf that keeps us warm and snug all winter long. Since oversized scarves are trending this season, add a pink or red one for February. I love the pink and red combo!

Red tights have been on the scene since last fall and I love this because they're both fun and fashionable (and keep our legs warm)! Choose a bold, red tight and then pair it with black or white or even red for a monochromatic look. Don't feel pressure to be "matchy matchy"! Pair similar shades of the same hue together for an amazing outfit!

If you are choosing a monochromatic look, pick your top, bottom, layering piece and shoes in the same color for a quick and easy way to pull off a chic and sophisticated look!

Maxi skirts are THE length to be wearing right now. When choosing what to go on top, try a classic, button front blouse or a fitted turtleneck as great possibilities. Remember, if your skirt is flowy, the top needs to be more fitted for the perfect balanced look!

Shop your jewelry box for a special Valentine's look! Pull out the beaded or pearl bracelets, chunky chains in silver or gold and bangles of any color. Then, pile them all on together, combining pieces you wouldn't normally pair for a one-of-a-kind style that is all your own!

Lounge sets are all the rage. A matching set, comprised of cozy knit top and pants, is not only the easy way to pull off a monochromatic trend but the best way to stay warm and comfy too! I have seen these in lots of stores for every budget and in a variety of colors. You can wear them with sneakers for a casual look or a metallic loafer when you want to dress it up

I have seen more hearts on clothes and jewelry than ever before this season! TJ Maxx and Marshalls have had so many cute tops to choose from I couldn't help but buy a few. They don't have to just be for Valentines Day either This symbol of love can be worn year-round! From necklaces to earrings, rings and bracelets you can add some accessories to any outfit to add that extra spark!

If there ever was a time to wear a red lip, it is now, on Valentine's Day! A red lip can elevate any look. Even if you don't wear any other makeup, it can be all you need to look polished for the big day. I know a bold red lip isn't for everyone so you can also try a berry, or a gloss in cherry red or even your favorite shade of pink!

Just for fun, try a Valentine manicure! Here are some great examples to take to your nail salon for inspiration!

One of my favorite sayings is Love Like Jesus! **I pray I can love others the way He loves me- patiently and unconditionally!** I hope you feel loved, not only on Valentine's Day, but every day! I love you and thank you for following along with me!
