Inspiring women to develop an outward style to reveal their inner beauty!

Hello Beautiful Friend!

Let's talk Color!

Back in the 80's when Color Analysis first became a "thing" my mom took me to the mall and we had our colors done. They pulled back our hair and determined what "season" we were. Anyone else have this done back then? Well, we have come a long way baby!

Here we are in 2024 and, thanks to Tik Tok, color analysis is in the spotlight once again! I want to strongly express to you that you are so much more than a "season"! I believe the way I was trained and certified by *Style By Color* is the most accurate and **best way to determine YOUR very BEST colors!**

In 2006, Shari, Founder of *Style By Color*, developed the **Color Code System**. Her research determined analysis of an individual's dominant color characteristics (DCC) of eyes, skin, hair, and contrast levels produced an accurate result in comparison to the review of the seasonal analysis system of just an individual's skin undertone and eye color. She combined seasons to create one code for each dominant color characteristic (DCC). I strongly believe your hair color has to be taken into consideration along

with your eye color and skin tone to determine which colors are going to be the best for you!

When I do your personal color analysis, I will take your dominant color characteristics into consideration to determine the color code I assign to you, and you will receive digital color swatches to have on your phone for easy access when shopping. This will include 36 fabulous colors along with your best metallic and print. These are also available in physical card deck form if you prefer.

Sound like fun? Contact me to schedule your personal color & style analysis appointment or, better yet, grab your mom, sister, BFF or a few girlfriends and do it together for a discounted rate per person.

Check out some of the beautiful fall color trends we will be seeing this season and be watching for my next few emails on more fun fall fashion trends!
